

## GOVERNMENT HANDS RELEASE CONSULAR AGENT

Mexico Warned of America's Attitude Toward Kidnaping

## LETTER RECEIVED FROM JENKINS

WASHINGTON, Nov. 20.—The state department today was informed that the American consul at Mexico City, which was in the sum of \$150,000.

Official reports of the case showed the state department to be from the American embassy in Mexico City which was in the sum of \$150,000.

A letter was received from the consul agent today by Representative Davis of Tennessee.

Jenkins gave a graphic description of his capture by and experience with the bandits, who he told him that the principal cause of his capture was "to demonstrate that the present government of Mexico was not able to give guarantees (to foreigners) at even in the secondary city of the country."

The department of state's note pointed out that the United States government was surprised and incensed, to learn of the re-imprisonment of Mr. Jenkins, particularly in view of the suffering and losses already sustained by him in connection with his kidnapping.

In his letter to Representative Davis, Jenkins said he was overpowered in his own yard by five armed men and told he would be killed if he resisted.

"I had my hands tied together," he said, "and then was forced to go to the office where the two safes were emptied of all money amounting to a few hundred pesos."

"I was carried off to the mountains that night," he continues, "traveling all night in the back and kept in the mountains for one week, sleeping in the open hills and in the brush. Unfortunately it began to rain on Tuesday and for three successive nights it rained all night and I was wet to the skin. On Thursday night I began to suffer from rheumatism and by Saturday I was in a deplorable state. As a matter of fact I was in such a shape that I think I would have died in a few more days."

Jenkins said the Mexican state government and federal government did nothing at all to effect his release.

Startling Disclosures Promised Laredo, Texas, Nov. 20.—Addressed received here today from Puebla, Mexico, state that the credit, Federico Cordova, has offered to make "startling disclosures" in connection with the kidnapping of American Consul Jenkins, and arrangements now being made for Cordova's surrender.

Russian Situation Nov. 15.—(By The Associated Press.)—The Red army has been ordered to the west bank of the Dnieper, opposite Omsk, according to direct telegraphic information received here today. General Cappell, second in command under General Sakharov, is still holding Omsk with his cavalry and artillery. It is reported there has been little fighting at Omsk. The complete evacuation of the city is considered to be a matter of hours.

## IMPERATOR WILL BE TURNED OVER TO GREAT BRITAIN

Allocation of Seven Other German Ships Has Not Been Decided

WASHINGTON, Nov. 20.—Settlement of the controversy over disposition of the German liner Imperator was indicated tonight by shipping board officials who intimated the ship would be tendered immediately to Great Britain.

Action with regard to the seven other German steamers in the same status had not been determined, it was said. It will depend, it was indicated, on final disposition of the tankers under the German flag but American owned now held in the Fifth of North by direction of the supreme council.

The Imperator and the other seven ships were allocated to the United States at the armistice and were used to transport American troops from overseas. Great Britain had expected to obtain them when they had completed this service and the Cunard Line had made all arrangements for placing the Imperator in the New York-Southampton passenger service.

When the war department had finished with the ships it turned them over to the shipping board which refused to surrender them to the British ministry of shipping at New York.

Recently the supreme council at Paris directed that the tankers be turned over to Great Britain under the guardianship of Great Britain until a decision as to their final disposition had been reached.

## COAL SITUATION IN NORTHWEST VERY SERIOUS

Country Placed on Wartime Rationing of Fuel.

CHICAGO, Nov. 20.—Chicago and the northwestern railroad region today were placed on a virtual wartime rationing of coal. Coal officials instructed retailers to refuse to make deliveries to persons with at least one week's supply on hand.

There was an improvement in Wyoming where the bulk of the miners returned to work in the Rock Springs district where radicals were blocking resumption of operations. Arrest of four persons alleged to be radicals, and the presence of troops helped the situation.

New strikes, said to be spreading in the New River field of West Virginia, and another ordered effective in Colorado tomorrow, prevented an increase in production which Director of Railroads Hines, estimated at 30 per cent of normal yesterday.

Governor Harding of Iowa, telegraphed today to governors of other states producing soft coal suggesting concerted action to take over the mines and grant the miners a substantial increase pending the result of the joint wage conference.

Steel manufacturers of Pennsylvania also regarded the situation as serious and one said reserve supplies were being drawn upon and that with union mines still closed in Pennsylvania and non-union mines producing much less than the necessary quantity, the immediate future of the country was causing concern.

The second injunction proceeding in connection with the strike came up in Colorado where the attorney general of the state obtained an order restraining the district mine workers officials from putting the second Colorado strike into effect tomorrow.

Coal rationing now embraces a large section of the country. The southern states, east of the Mississippi river, was put on rations of one ton yesterday. The weeks supply ration for Chicago and the northwestern region extending to the Pacific coast was announced late today. The central western region which was promised immediate aid yesterday by Director General Hines at his conference here with seven regional directors, has generally in its territory a system of voluntary rationing.

WILL REVISE BERNE CONVENTION WASHINGTON, Nov. 20.—Revision of the Berne convention of 1906 prohibiting the employment of women at night was recommended today by the international labor conference. The principle of the agreement was endorsed, but changes were advocated to meet the demands of the industrial and social evolution during the thirteen years of its existence.

Under the recommendations of the agreement would be made applicable to "industrial undertakings" where less than ten women were employed.

Louis Guerin, French representative of the employers' group, tried to have an amendment adopted providing for an earlier beginning of women's work day, but it was rejected and the 6 a. m. limit remained.

## WILSON REFUSES TO RESCIND WAR TIME PROHIBITION

Supreme Court Hearing Arguments on Validity of Law.

## DECISION DECEMBER 8

WASHINGTON, Nov. 20.—While the supreme court was hearing argument today on the validity of the war time prohibition act, word went out from the white house that President Wilson would not rescind the dry act until peace formally had been declared.

Failure of the senate to act on the treaty was regarded by many administration officials as precluding the ending of the technical state of war much before the constitutional prohibition amendment became effective January 16.

Should such prove the case, the only possibility of a "wet" Christmas would be for the supreme court to declare the war time act unconstitutional. As the court court recesses Monday no decision is expected until it reconvenes December 8.

The right of congress to prohibit the manufacture and sale of intoxicating liquors was sharply attacked and vigorously defended during the arguments.

Elihu Root and others contended that the war time act and the Volstead enforcement measure not only violated the fifth constitutional amendment prohibiting the taking of property without just compensation, but were inoperative owing to the cessation of hostilities and the demobilization of the army which were responsible for their enactment.

Solicitor General King and William L. Frierson, assistant attorney general for the government, however, argued that a state of war still existed and that it was congress intent to provide war time prohibition until the peace treaty was ratified.

The arguments which will be concluded tomorrow, were in appeals brought to the supreme court from Kentucky where the war time prohibition act was declared unconstitutional and from New York, where federal court decrees sustained both the war time and the enforcement acts and dismissed injunction proceedings sought to enable Dryfoos Bloom and Company to remove whiskey from bond and Jacob Ruppert, brewer to manufacture beer containing more than one half of one per cent alcohol.

Mr. Root said he totally denied the government's contentions that the acts were validly enacted under congress war powers.

"The declaration of war is not the emergency that brings into play the war powers of congress," continued Mr. Root, "all the patriotic impulses of our people have been to give the widest latitude of power to the legislative and executive branches of our government. Such great power was never exercised by any potentate. But it is not human nature to give up power and the deadliest peril of a free nation is the tendency of power to encroach upon the rights and liberties of a free people. When power is no longer limited, we are no longer free."

During a discussion as to the existence of the emergency, Justice Pitney remarked: "The enemy hasn't heard of our terms of peace as laid down by the senate."

"There is no controversy in the senate as to the terms of peace but over a collateral agreement among the associated nations and that only," hastily retorted Mr. Root.

PALMER ON VERGE OF NERVOUS BREAKDOWN WASHINGTON, Nov. 20.—Attorney General Palmer was reported today on the verge of a nervous breakdown and under orders from his physician to get away from work and take all the rest he needs.

Mr. Palmer's physician has told him, it was said, at the department of justice that "unless he quits work for more than a week he would not be responsible for the consequences."

There was no statement as to when or where Mr. Palmer would go for a rest.

## OPEN CAMPAIGN TO DRY WHOLE WORLD

ST. LOUIS, Mo., Nov. 20.—A campaign to make the world dry was launched by the National Woman's Christian Temperance Union today by adoption of the legislative program which, among other recommendations, urged congress to enact legislation disfranchising Americans in countries where treaties grant extra territorial rights from acting in violation of the dry law.

The proposed law is designed to apply especially to brewers contemplating moving to China, it was explained.

## "BILL" CARLISLE, FAMOUS TRAIN ROBBER, STILL AT LARGE

Sends Message to Railroad Officials Taunting Them for Failure of Capture.

CHEYENNE, Wyo., Nov. 20.—Laughingly defiant "Bill" Carlisle, train robber, is still at liberty. Soldiers, trappers, sheriffs, detectives, all are searching the country around Casper for the bandit who today, emerged from his secret whereabouts long enough to send a telegram from Casper to Union Pacific officials taunting them for the failure of their detectives to capture him after he had robbed the Los Angeles Limited Tuesday night.

Tonight the police agents of the Union Pacific are nervous. They do not hesitate in expressing the opinion that the next time they see Carlisle it most probably will be in the form of information that another trans-continental passenger train has been robbed. They say every precaution has been taken to prevent a recurrence of the bandit's depredations but then—as one veteran police officer said: "The only thing to expect when you're figuring on Bill Carlisle, is the unexpected. We hope his next haul will be a 'water-haul' but we don't expect it."

A special train, on board which are many armed men, stands under a full head of steam in the railway yards here tonight waiting to respond to the momentarily expected report that Carlisle is again "up to his old tricks."

Three years ago Carlisle robbed three Union Pacific trains in quick succession, all the while boasting of his activities. After the third offense he was captured and given an indeterminate prison sentence from which he escaped last Saturday night.

Carlisle Not a Mean Man. Chicago, Nov. 20.—Al Phillips, of Creston, Wyo., a former employer of William Carlisle, the bandit, in Chicago selling his stock, expressed the hope today that it was not his gun and clothes that "Bill" took from a Creston sheep house but if they were he declared "I'd admire telling that gent what I think about the way he treats old friends."

Phillips said Carlisle was not "mean" but "just naturally full of fireworks."

"If Bill had only gone in for jumping off buttes for the movies instead of sticking up trains he'd have all the women in the country following him instead of the Fort Russell cavalry and bloodhounds," said Phillips.

## URGES BANKERS TO CONSERVE

CHICAGO, Nov. 20.—George M. Reynolds, president of the Continental and Commercial National Bank of Chicago, addressing a group of bankers tonight advised them to decrease "your buying, wear your own clothes, conserve every penny and do not get alarmed but sit tight and don't worry."

He said there was nothing yet in connection with stock fluctuations to be disturbed about, but urged care in extending credits, saying six per cent, basic rate might be found necessary and that the stress on money would continue until the first of the year, but that the small grain movement, caused, he was informed, by farmers holding and storing their grain, would be remedied and the crops moved.

## FRENCH AMBASSADOR TO U. S. HONORED

PARIS, Nov. 20.—(Havas)—Jules Cambon, former French ambassador at Washington, ambassador to Germany at the outbreak of the war, and later a member of the French delegation to the peace conference, was received today into membership in the academy at a session presided over by former Premier Ribot. President Poincare was one of his introducers.

In his address M. Cambon traced the course of French diplomacy from 1870 to 1914, dwelling upon the Russian alliance which prepared the way for the entente cordiale.

## British Press Upholds G. O. P. Stand on Pact

LONDON, Friday, Nov. 21.—(By the A. P.)—Keen regret tempered by hope on the one hand and outspoken approval of Senator Lodge and his supporters on the other hand are the outstanding notes in the London newspaper comment on the subject of the United States senate's action on the Versailles peace treaty.

The Daily News, which is a warm advocate of the league of nations, expresses the thought that, although the situation is grave it is not yet desperate and looks forward to the reintroduction of the ratification resolution with the hope that "the ten days between now and the next session will be fraught with issues momentous for the world."

The Morning Post in its comment today thinks that the obvious reason for the senate objecting to the covenant of the league of nations was that "there are in America still citizens who have robust faith in their own nation and heartfelt pride in the sovereign freedom of the United States."

"When they found their president bent on transferring their rights and independence and subordinating the United States to a committee on which their country must always be in the minority," the newspaper adds, "their pride of race and nationhood revolted."

The Journal regards the attitude of the Republican party as "worthy of free men and citizens of the great republic and a refreshing change from the international spirit which has grown sick of the native hue of British patriotism."

## IOWA GOVERNOR WOULD TAKE OVER ALL COAL MINES

Telegraphs Executives of Other States Seeking Concerted Action.

DES MOINES, Iowa, Nov. 20.—Governor W. L. Harding of Iowa, telegraphed governors of other bituminous coal producing states today suggesting concerted action today taking over the mines and offering the miners a substantial increase in pay pending the outcome of the miners-operators negotiations in Washington. Governor Harding's telegram read: "Coal famine is mighty serious in Iowa. Must in some way get mines producing coal at an early date. Can take charge of mines under martial law. Only way to produce coal is to have miners go back to work. Suggest governors of coal producing states take charge of mines under whatever power or plan they have at their disposal, pay wage to miners pending negotiations in Washington."

"If states work in unison on this plan it will relieve situation without disturbing the status or rights of either miners or operators. Can or will you do this? Am writing governors of coal producing states. Think miners will produce coal under such plan."

Indiana Governor Comments. Indianapolis, Ind., Nov. 20.—A message from Governor W. L. Harding of Iowa, suggesting seizure and operation of coal mines by states pending the outcome of the negotiations of miners and operators in Washington, was received by Governor James P. Goodrich late today.

Negotiations of coal producing states. Think miners will produce coal under such plan."

"I do not see how the state has the power to seize such coal mines except thru the courts and I shall have to think about the proposal after I return to Indianapolis tomorrow morning."

CHARGE ELEVEN I. W. W. WITH MURDER Centralia, Wash., Nov. 20.—Eleven alleged I. W. W. charged with first degree murder in connection with the armistice day shooting here were arraigned today before Superior W. A. Reynolds, at Chehalis, the county seat, and given 36 hours in which to plead.

Two other alleged radicals, Ole Hansen and John Doe Davis, are numbered among the defendants. Hansen and Davis, still at large, are being pursued by deputy sheriffs from here. No attorney represented the prisoners today. The defendants will not be able to retain any Lewis county lawyers, as the local county bar association has passed resolutions barring any of its members from taking part in the defense of the alleged radicals.

## HAS NARROW ESCAPE FROM DEATH

Fairmount, W. Va., Nov. 20.—United States Commissioner Charles R. Lilley of Grafton, W. Va., narrowly escaped injury or death today when a bullet was discharged from a pistol concealed within the handle of a huge pocket knife found in raiding alleged radical headquarters at the Dakota Mine near here.

When Commissioner Lilley picked up the knife it was discharged instantly the bullet striking a hole thru the sleeve of his coat and barely missing his body.

Three alleged radicals were arrested today bringing the total here to 4.

## 2,000 TEACHERS IN SESSION

Urbana, Ill., Nov. 20.—About 2,000 high school teachers and principals have arrived here for the state high school conference which opened tonight at the University of Illinois. The conference will close Saturday.

## OPERATORS BREAK THE ICE; OFFER MINERS RAISE

Chances for Settlement of Differences Brighter.

## BOTH SIDES WILL GIVE IN

WASHINGTON, Nov. 20.—The operators and miners of central competitive fields remained hard locked all day today in their negotiations for a new wage scale contract, prospects for an agreement that would settle the coal strike were considered brighter tonight than at any time since the strike was called.

The operators offered to the miners' representatives a flat increase of fifteen cents a ton on coal mined and 20 per cent increase for day workers. John L. Lewis, acting president of the Mine Workers of America, outwardly stamped the concession as wholly inadequate, but both sides plainly took the offer as a breaking of the ice and an opening for trading tomorrow.

President Lewis indicated that miners were preparing to come down a degree in their demands for a six hour day and a sixty per cent increase.

"The operators are proposing something that they know 'can't be accepted,'" he said. "The increase they give they simultaneously arrange to take back in increased charges to miners for supplies. Then they haven't talked the question of hours at all. It isn't necessary to take up the six hour proposal. We have many of our men who work nine and ten hours a day under present conditions, because the present eight hour day in the mines is merely a basic theory, and not an actual fact."

Thomas T. Brown, chairman of the operators scale committee refused to discuss the proceedings but the operators were outlined more fully by his associates.

The proposed wage advances are the absolute maximum to be offered W. T. Griffith, member of the operators' wage scale committee representing Western Pennsylvania and George B. Harrington of Illinois, spokesmen for the operators said tonight. Failure on the part of miners to accept the proposition would mean mediation by the government, Guthrie said.

They estimated that the price of coal at the time it leaves the mines would be increased from 35 to 40 cents per ton as the result of the offered advances, but declined to speculate as to how much might be added by middlemen before the coal reached the consumer.

The position taken by the operators' representatives was that their offer was strictly in line with the statements of Secretary of Labor Wilson and Fuel Administrator Garfield.

## PROTEST AGAINST SHORTAGE OF CARS

COLUMBUS, O., Nov. 20.—Vigorous protest against the delay of the Louisville & Nashville railroad company in setting cars for the mines of the Hazard Field of Kentucky was made today by Director General Hines and Fuel Administrator Garfield, by B. F. Nigh, secretary of the Michigan, Ohio, Indiana Coal Association.

Complaints of car shortage made by Mr. Nigh from the Hazard Field showed that 159 cars were provided while the mines asked for and were ready to load 500 cars.

The daily normal capacity of the Hazard Field is 25,000 tons. The mines are operated by non-union labor. The railroad claimed its terminals were congested, Mr. Nigh stated.

The National Coal Association also has filed a protest with Mr. Hines and with Dr. Garfield seeking ample cars for every mine that is in operation, Mr. Nigh concluded.

## WORLD CONFERENCE CHRISTIAN CHURCHES

NEW YORK, Nov. 20.—A preliminary meeting for a world conference of all Christian churches will be held next year, probably at Geneva, Switzerland, the North American council to propagate a union of all Christian communities decided in a meeting here today.

Bishop Charles H. Anderson of Chicago, who presided, announced that the churches of the near east which he recently visited were ready to join in such a conference. Bishop Anderson declared that virtually all Christian communities except Rome, which refused, and Germany, and the other central powers which had not been approached, had agreed to join in a world conference.

## KREISLER BARRED FROM GIVING CONCERT

Louisville, Ky., Nov. 20.—At the suggestion of Mayor George W. Smith, Fritz Kreisler, Austrian violinist, cancelled his contract for an appearance at one of the leading opera houses here tonight.

## BRITISH ROYAL GUEST A VISITOR AT WEST POINT

Prince of Wales Has a Comparative Idle Day in New York.

NEW YORK, Nov. 20.—The Prince of Wales spent a comparatively idle day today. There was nothing on his program except a visit to West Point where he inspected the cadets, a vigorous hour at squash, a dinner on the British Battle-Cruiser Renown and a theater party.

All the rest of the time was his own. The trip to West Point was the big event of the day and occupied the major portion of it. There the prince was received by a cavalry escort headed by Brigadier General McArthur, the commandant. After luncheon and a reception to school children and the principal incidents scheduled for tomorrow. The prince's visit to America will be brought to a conclusion on Saturday when he will confer decorations for gallantry on 120 American officers and sailors.

A visit to Oyster Bay, where he will lay a wreath on the grave of Theodore Roosevelt and a reception to school children are the principal incidents scheduled for tomorrow. The prince's visit to America will be brought to a conclusion on Saturday when he will confer decorations for gallantry on 120 American officers and sailors.

The thoughts of the treaty's friends in the senate centered on accomplishing some compromise for a ratification in the session beginning December 1, and to that end steps are understood to have been taken to ask that President Wilson ascertain from the other powers what reservations they would accept. At the white house silence was maintained.

## COURT MANDATE PREVENTS STRIKE COLORADO MINERS

Restraining Order Issued by District Judge Morley.

DENVER, Colo., Nov. 20.—A restraining order preventing the strike called for midnight Friday of Colorado, Coal miners was issued tonight by District Judge Frank J. Morley. George O. Johnson, district president, H. C. Stewart, secretary, and other officials are restrained from putting the strike into effect.

The order was issued at the request of the state attorney general. Within five days the attorney general will ask for a temporary injunction, he announced. The state industrial commission law requiring thirty days' notice of a strike was the basis for the request of the attorney general.

The strike was called because of alleged discrimination against Union miners who sought to return to work following the action of Indianapolis miners' officials in calling off the nationwide strike. Midnight Friday was the time set for the strike and orders to this effect were mailed today according to President Johnson whose headquarters are at Pueblo.

Johnson when seen here tonight said he would seek legal advice before determining to comply with the court order. He said he doubted if he could be a cancellation of the strike order to local unions in time to prevent the strike.

15,384 AMERICANS HONORED ABROAD Washington, Nov. 20.—From the passage by congress in July 1918 of an act authorizing the acceptance of foreign medals and insignia, 15,384 officers and enlisted men of the American army have been decorated by powers associated with the United States in the world war. The annual report of the adjutant general, Major General P. C. Harris, issued today shows:

France awarded the cross of the Legion of Honor to 99; the Croix de Guerre to 11,884; military medal to 290 and various other decorations to 259.

Great Britain awarded a total of 842 medals; Italy 684; Belgium 630; Montenegro 82; Greece 2; Czechoslovakia one and Japan one.

## FIRE AT LEAVENWORTH DISCIPLINARY BARRACKS

Leavenworth, Kans., Nov. 20.—Fire which broke out tonight in the prison exchange building at the federal disciplinary barracks here at a late hour, had destroyed the exchange building and spread to the wooden cantonments near the large new cell house. The flames were spreading rapidly and efforts to check failed.

CUT OFF COAL SUPPLY Duluth, Minn., Nov. 20.—The substitute regional coal distribution committee consisting of E. D. Brigham, chairman, and E. H. Groverman, fuel administration member today ordered that no more coal shall be shipped to any body, whether engaged in essential industry or not outside the territory ordinarily served from the Duluth-Superior dock.

## OFFICIALS REVIEW SENATE'S ACTION TOWARD TREATY

Next Course of Administration Matter of Speculation.

## WHITE HOUSE REMAINS SILENT

WASHINGTON, Nov. 20.—Avenues of speculation leading many ways were opened up today when officials and diplomats turned over in their minds the possible results at home and abroad that are to follow termination of the special session of congress last night without senate ratification of the peace treaty.

The thoughts of the treaty's friends in the senate centered on accomplishing some compromise for a ratification in the session beginning December 1, and to that end steps are understood to have been taken to ask that President Wilson ascertain from the other powers what reservations they would accept. At the white house silence was maintained.

Everywhere the senate's action was accepted as meaning at least a long delay in ratification and officials thought the formal establishment of a state of peace between Germany and the allies that have ratified would proceed now without waiting further for the decision of the United States. The chief result, it was agreed, would be commercial and financial.

Chief among the matters of domestic concern affected by the senate's delay is wartime prohibition which took a new lease on life with the postponement of a legal status of peace. In the same class is various other war legislation.

Another line on which speculation turned was the possible effect of the senate showdown on domestic politics. Although both parties have disclaimed any desire to put the treaty into politics, the chances of keeping it off of 1920 calculations were admitted on all sides to have been reduced by the bitter clashes in debate last night when Republican and Democratic senators hurled across the senate chamber their challenges to go to the country on the issue.

The struggle which featured the final hours of the special session was generally declared to have made harder the compromise for which the Democratic leaders today earnestly set to work. They believed, however, that in the opening days of the new session, if not before, they could reach some agreement with the group of mid reservationists who held out in yesterday's debate against efforts to divorce them from the Republican organization. Democratic Leader Hitchcock who took a conspicuous part in the administration's fight for ratification issued a statement today pointing out that eighty Senators in all voted yesterday for ratification in some form and expressing a belief that they sixty four necessary to ratify would get together ultimately.

Tonight the Democratic leader had drawn up a new set of compromise reservations which are understood to propose a modification of the preamble requirement in the foreign relations committee draft which would require the other powers to accept affirmatively all the senate's qualifications.

Everything indicated that the administration had no intention of letting the treaty fight lapse, even during the interval before December 1.

The general opinion seemed to be that the president in order to get the treaty into an advantageous parliamentary position again, probably would withdraw it and then submit it again in the opening days of the new session. It was pointed out that under such a procedure it would come back before the senate without the compelling clause restriction which brought debate to an end yesterday. In many quarters it was thought doubtful whether the cloture rule, invoked in this instance for the first time, could

By action of the court of appeals the sale of liquor is to be stopped in Rhode Island until a finding is made by the supreme court. Sale was resumed just a few days ago when a court ruling ruled that the war-time prohibition was not effective. The later court action is in the line of equity, for both wet and dry forces will agree that on this national question there should not be different conditions in the different states.

The international labor conference has submitted to the leading governments of the world the proposal that children under 14 years of age shall be exempt from labor. This is one of the most important recommendations ever made in a world-wide way and if with passing time international laws are framed in accordance with it, tremendous progress will have been made in dealing with industrial and economic conditions. Labor advocates will find support in many quarters for this humanitarian proposal.

## POP INSTEAD OF BEER

A ward political meeting was held in Chicago the other night with ice cream sodas and pop for refreshments. Nearly 9,000 people attended the meeting and it was a very successful warfow. A year or two ago such a meeting without barrels of beer and other intoxicants would have been considered an impossibility.

People adapt themselves readily to circumstances here in America, and after the prohibition amendment is effective it won't be long until many of those who sorrow or kick now about the enforced dryness will have forgotten their troubles and either be happy or complaining from other causes.

## PEACE TREATY ACTION

While the peace treaty debate has been the most important

heard in the senate in many years, it must be admitted that comparatively few people have followed that debate or understood the full meaning of peace treaty provisions. So most people felt no regret when congress adjourned the special session and the peace treaty and covenant discussion went over to December. Certainly no dire disaster will occur in the intervening weeks because of senate action and when the regular session begins the atmosphere may possibly be clarified.

## RAILROAD EARNINGS

The most recent report of the railroad administration shows that the roads were operated at a very considerable profit during the month of September. Perhaps the government representatives are just learning how and if they could remain longer in charge might make up a part of the heavy losses that the government has sustained in railroad operation during the preceding months. But no matter what the showing made for the rest of this year, it seems to be an accepted fact that the railroads will go back to private control in January. This will be very satisfactory to the great majority of the patrons of the roads.

## GOVERNMENT FLOUR

The government is going into the flour business and proposes to sell high grade flour to consumers at a reasonable price—that is, somewhere about \$12 a barrel. This announcement would have created more interest a few months ago than it does just now, for a number of government "bargains" offered in past weeks have been quite disappointing. The government flour offers in the past have not met with a spirited demand for the flour has not been milled in a way to meet the

taste of consumers, who are used to the finer milling processes. These processes undoubtedly do not make flour better, but they do result in whiter bread and the surprising thing has been proven that most consumers are willing to pay the difference between the price of the regularly milled flour and that of the government has offered.

## ONE HUNDRED YEARS OF IMMIGRATION.

Immigration is one of the vital problems of the day. Whether to restrict it or prohibit it altogether is being discussed in and out of congress. In view of this fact, a statement just issued by the Department of Commerce on 100 years of American immigration is of timely interest.

Great Britain ranks first as a source of immigration since 1820, followed by Germany, Italy, Austria-Hungary, Russia and British North America. The Irish constituted the predominant element in British immigration, supply in the last 100 years a number equal to the present population of Ireland.

"In view of its size," the statement says, "it is remarkable that Ireland has supplied 4,348,759 immigrants in the last 100 years—a number practically equal to its present population (4,330,219), according to the census of 1911." The arrivals from England for the same period totaled 2,434,144.

"Of the total immigration in 1820, the German empire contributed 11.5 per cent; in 1821, 4 per cent; in 1822, only 2 per cent, and continued to furnish only a small percentage until 1832. Thereafter immigrants arrived from Germany in growing numbers of immigrant aliens admitted into the United States from Germany during the century until review was 5,494,638. "Italian immigration is of comparatively recent growth. The total number of arrivals from Italy during the 100 years is 4,100,735."

## LEAGUE EXPENSES STAGGERING.

Senator Spencer of Missouri has received and has printed in the Congressional Record a most interesting estimate of the probable annual budget of the league of nations in operation. The expense audit was prepared by a leading lawyer and accountant of the National Capital, and is as nearly accurate as present information and past experience make possible. The 170 tribunals and commissions that are actually named and created by the league of nations or that are put under the direction of the league by the treaty with Germany are taken up one by one and assigned personnel and salaries in accordance with the importance and extent of their duties and in conformity with the best modern practice. A total annual expense of \$1,194,592,090 is indicated, of which the compiler contends that "the

United States, having the largest amount of taxable wealth of any nation will be called upon to pay the bulk."

A summary of the audit submitted by Senator Spencer is as follows:

**Salaries and Pay Roll—**  
First class, 6,505 persons at \$10,000 .. \$ 65,050,000  
Second class, 12,352 persons at \$5,000 .. 61,760,000  
Third class, 166,310 persons, at \$2,000 .. 332,620,000

**Traveling Expenses—**  
One third of these employees will be traveling as investigators and to attend meetings at an average of \$3,000 each .. 185,167,000  
Office Rent, Heat and Light ..

Each employee is allotted the usual office space, and this is usually computed as costing \$170 per annum per person 31,478,390  
Wear and Tear, Furniture and Office Equipment—  
This is usually figured at \$100 per person per annum. 18,516,700  
Miscellaneous—

Pr in thing, exclusive of labor, plants, furniture, office equipment, attendance witnesses at hearings, etc. ... 500,000,000  
Total ..... \$1,194,592,090

Rippling Rhymes  
By Walt Mason

**The Husbandman.**  
The farmer milks the lowing kine, and carries grape juice to the swine, the kind of dope they like; he starts to work ere break of day, and plugs along till dusk is gray, and hasn't time to strike. He stands in need of shorter hours, more time to sleep in cozy bowers, more time to rest and read; but he can hear the horses neigh for bundles of refreshing hay, the mules for fodder plead. The old gray mare is beastly sick, the colic makes her roll and kick, and stand upon her head; and so he nurses her all night, until she's feeling well and right, instead of being dead. He has to hunt a missing sow, or saw the antlers from a cow, so she won't hook again; he has to crawl beneath a crib—and spoil his tucker and his bib, to find a setting hen. The farmer has more cause to strike than Jonathan and Pete and Mike, who in the cities live; but he has many chores in view, and no profit stunts would never do—no profit would they give. But if the farmer struck, ah, me! Oh, where in blitzen would we be, and where would we get off? There'd be no bacon and no beans, no flour or meal or helpful greens, no skim milk in the trough. If e'er the farmers organize and strike as strike the other guys, they'll be a frightful dearth; and we'll fold up our weary limbs, and heave a sigh and close our glims, and just fall off the earth.

## WILLING WORKERS ENJOY SOCIAL

Gathering of Members of Alexander Organization Proves Pleasant — Other Alexander News.

Alexander, Nov. 20.—The Willing Workers of the Alexander M. E. church enjoyed a social this afternoon at the club. The hostesses were: Mrs. Sarah Cook, Miss Anna Colwell, Mrs. Lois Block and Mrs. J. T. Little. An interesting and entertaining program was carried out during the afternoon and included the following numbers:  
Instrumental solo—Mrs. Ernest Strawn.  
Vocal solo, "Ain't Folk"—Miss Marie Moss.  
Duet—Mrs. C. M. Strawn and Mrs. Ernest Strawn.  
Solo—Mrs. K. V. Bearup.  
A contest was held, with Mrs. C. M. Strawn winning first prize. Following the program refreshments were served and a social hour enjoyed.

**News Notes.**  
Mrs. C. H. Bearup went to Jacksonville today to visit at the home of Mrs. M. E. Greenleaf. Rev. and Mrs. J. A. Betcher of Ashland were calling on friends in Alexander Thursday.  
Among those from Alexander who visited Springfield Wednesday evening were Mrs. K. V. Bearup, Mrs. C. H. Bearup and son Clyde Douglas, Miss Catherine Turner, Miss Marie Centne, and Mrs. C. M. Strawn.

## MANCHESTER PASTOR MYSTERIOUSLY MISSING

Rev. Glenn Pfeiffer, of Methodist Church, Has Not Been Heard From For a Week—Father Seeks Son at Bloomington.

Rev. Glenn Pfeiffer, pastor of the Methodist church at Manchester has been mysteriously missing since last Friday.

It is known that Rev. Pfeiffer boarded a Chicago & Alton passenger train Friday morning after buying a ticket to Springfield. It is also known that in Springfield he bought a ticket for Bloomington and left Friday afternoon for that point. Since Friday afternoon no word or trace of the minister has been had.

Rev. A. Pfeiffer, also a Methodist minister, residing at Vandalia, went to Bloomington Wednesday in an effort to locate his son, or to secure some clue as to his whereabouts.

The missing man is about 22 or 23 years of age and was formerly in the army, serving many months overseas. Prior to America's entrance in the world war Rev. Pfeiffer was a Y.M.C.A. secretary at St. Louis. His wife is prostrated over his unexplained absence and has been taken to the home of her parents at Kane, Ill.

The Manchester Methodist church was the young man's first charge, as he was just lately ordained and appointed to that church. It is feared by his friends in Manchester that Rev. Pfeiffer is suffering from shell shock or from some nervous trouble caused by his hardships overseas.

## STILL CHARGING FORMER RATES FOR FOREIGN MONEY ORDERS

From the "Wall Street Journal" the following Boston telegram is taken:

It has been a subject of comment, usually critical, during the depression in foreign exchange, that the post office has been charging the American public the pre-war or "par" rates on transfers of funds to foreign countries.

The purchaser of an international money order pays not only the fee of cents up to a dollar on amounts ranging from \$10 or under to between \$50 and maximum of \$100, but also loses some of the advantage the dollar now commands over European currencies.

To take the extreme case, it costs \$97.30 to transmit 500 lire to Italy, at the normal parity of 5.15 to the dollar as still charged by the post office; while by use of foreign exchange the transaction calls for only \$475.85, or a little less than half as much, at the present low rate for the lire of 70 45 to the dollar.

Similarly the post office cost of remitting 500 francs to France remains \$97.30, while the present foreign exchange cost is but \$57.80. The relative charges for transmitting 20 pounds to England are \$97.40 by money order and \$3.40 by exchange.

The disparity is due to the fact that the various governments have not yet "got around" to adjusting international postal rates to the new conditions, and are not apt to do so until those conditions themselves assume some degree of stability, following primarily the ratification of peace.

Meanwhile there applies only the doctrine of "caveat emptor"—let the buyer beware. The one criticism is that many small buyers, accustomed to deal with the post office, but unfamiliar with banking, are probably not adequately advised of the losses they sustain. They do not know that the banking houses would accommodate them with foreign exchange in amounts as low as \$5.

That very many, however, are cognizant of the situation is shown by the sharp contraction in volume of outward postal orders and by the fact that the Italians, for example, who in peace times used to buy as much as \$1,000 or \$2,000 in money orders at a time, are no longer post office patrons.

Come to the Central Christian church tonight at 7:30 and see the motion picture Cinderella.

## Peculiar to Women

Many women continually bear the burden of distress and pain with fortitude just because they are women. Few of them realize that their ailments are due primarily to disturbed nerve function that can easily be corrected so that they may be free of the nerve-racking, system-wrecking spells that make life miserable for them periodically.

Most women can be strong, healthy, happy and vigorous, because their highly nervous and complex organism readily responds to Chiropractic Adjustments that offer a safe and effective means of restoring normal function.

Chiropractic (Ki-ro-prak-tic) corrects the cause by adjusting the spine and relieving the nerves of the bone pressure, which disturbs the nerve function. With the pressure removed normal function is restored and Nature builds up and strengthens the system. Acute and chronic cases are handled by Chiropractic in Nature's own way. Operations, drugs and instruments are needless in

Women everywhere are turning to Chiropractic for relief, because they find it not only effective, but free of the embarrassments of other methods. Every woman should investigate Chiropractic and learn what it can do for them in a health way.

**ANOTHER EFFORT TO BRING INDUSTRIAL PEACE TO COUNTRY**  
**President Calls Conference of Seventeen Prominent Americans.**

WASHINGTON, Nov. 20.—Another effort to bring industrial peace to the country is to be made by a conference of former federal and state officials, business men and economists, the personnel of which was announced today at the white house. The new body will represent no distinctive group, but will undertake to act in the interest of the people as a whole. It will meet in Washington, December 1. In his letter of invitation to the seventeen men who will make up the new gathering, President Wilson said the new representatives should have concern that our industries may be conducted with such regard for justice and fair dealing that the workman will feel himself induced to put forth his best efforts that the employer will have an encouraging profit and that the public will not suffer at the hands of either class.

No representatives of labor were included in the personnel, nor will there be any representatives of capital as such. Secretary of Labor Wilson headed the list. The president did not appoint any of the men who serve in the first conference.

**Personnel of Conference.**  
The personnel of the conference follows:  
Secretary of Labor Wilson; former United States Attorneys General Thomas W. Gregory, and George W.ickersham; former Food Administrator Herbert Hoover, former Sec'y of Commerce Oscar S. Straus; Henry M. Robinson, Pasadena, Cal.; Professor Frank W. Taussig, former chairman of the tariff commission; former Governor Samuel W. McCall of Massachusetts; former Governors Martin H. Glynn, of New York and Henry C. Stuart, of Virginia; Dr. W. O. Thompson, Ohio state university; Richard Hooker, Springfield, Massachusetts; George T. Slade, St. Paul; Julius Rosenwald, Chicago; Owen D. Young, of New York City; H. J. Waters of Manhattan, Kansas; and Stanley King of Boston.

The president's letter of invitation follows:  
"In accordance with the suggestion given me by the public group of the recent industrial conference I am calling a new body together to carry on this vitally important work, and I trust you will give me the pleasure of naming you as one of its members.

"Guided by the experience of the last conference, I have thought it advisable that in this new body there should be no recognition of distinctive groups, but that all of the new representatives should have concern that our industries may be conducted with such regard for justice and fair dealing that the workman will feel himself induced to put forth his best efforts, that the employer will have an encouraging profit, and that the public will not suffer at the hands of either class. It is my hope that this conference may lay the foundation for the development of standards and machinery within our industries by which these results may be attained.

"It is not expected that you will deal directly with any condition which exists today, but that you may be fortunate enough to find such ways as will avoid the repetition of these deplorable conditions.

"The conference will meet at a place to be hereafter designated in this city on the first of December next."

**SOUTHERNER HUNG**  
Fort Smith, Arkansas, Nov. 20.—According to a long distance telephone message received here tonight from Mountain Home, Ark., Baxter county, a crowd of twenty five citizens met members of a posse who were enroute to Coter with T. Lee, captured late today following a hunt thru the mountains of Arkansas and Southern Missouri for several days and hanged him to a tree.

**WILL STAND BY COUNTRY**  
New York, Nov. 20.—J. L. Fawcett, "counsel of the Irish republic" in this city, announced today that he had received a cable message from Liam de Rolste (William Roche) Sinn Fein member from Cork City denying a dispatch quoting him as saying that the Sinn Fein members of parliament intended to take their seats and swear allegiance to the king. He added he was certain that no Sinn Feiners intended to enter parliament and that intimations to this effect were British propaganda.

**OFFICIALS REVIEW SENATE'S ACTION TOWARD TREATY**  
(Continued from Page One.)  
again command the necessary two thirds.  
Without a limitation undecided the enemies of the treaty declare they would oppose any hasty action in the new session and it is reckoned that action might be delayed well into the new year.  
The leaders are mindful that some of the senators most bitterly opposing the treaty openly have expressed hope that the senate will not act until the people have spoken in next year's campaign.  
Senator Underwood was one of those who took an aggressive stand in last night's debate in challenging the Republicans, who stood solidly united on most of the roll calls, to take the issue into the campaign. Senator Harding, Republican, Ohio, said he would welcome the moment when the issue could go to the people. No formal expression came today from the mild reservation Republicans tho it was said they would be willing to talk compromise so long as the reservations framed by the senate majority were not impaired.

As an alternate to consideration of the treaty with Germany at the beginning of the new session it has been suggested that the treaty with Austria which also contains the covenant of the league of nations but does not refer to the debated Shantung settlement, might be submitted and pressed for ratification. That would raise in a new way many but not all of the issues involved in the fight over the German treaty and some senators believe an understanding might be reached making the way easier for the latter.

Altho it is understood there is no present intention of attempting to negotiate a separate peace with Germany, officials have considered that an ultimate possibility should the present treaty be definitely rejected.

**HEAVY SNOW IN BERLIN**  
Berlin, Wednesday, Nov. 19.—Four foot snow drifts block the streets of the capital. The cost of removing the snow has jumped from 90 pennings per cubic metre in peace times to 4-1-2 marks. On this basis it will cost more than 2,000,000 marks to clear the streets.

**PLEDGE MONEY TO STEEL STRIKERS**  
New York, Nov. 20.—A mass meeting of friends of the steel strikers here tonight brought together only 65 persons, but they contributed \$35,200, with additional pledges for \$32,000 to aid the strikers. Several men represented unions which expressed their sympathy with large donations.

ters pertaining to the association further discussed. A committee composed of Charles M. Strawn, L. F. O'Donnell and D. N. James was appointed to make arrangements for this meeting.

**Annihilated Nationally.**  
This association is to be affiliated with the national association and it also is to assist in promoting an Illinois state association. The meeting last evening is a part of a nation-wide program of the organized dealers for the purpose of protection of the automobile industry.

The national association is at present especially interested in a drastic program of federal and state laws which will protect all automobile owners in that they will provide heavy fines and prison sentences as penalties for the stealing of automobiles or for having any part in the sale of same. The association has just obtained the successful passage of the "Dyer Bill," a federal law which provides for a fine of \$5,000 and from one to five years in prison or both for the theft of an automobile and for taking it over a state line or for having any part in the theft therein.

Mr. Drury stated that the next effort of the association will be to have drastic laws passed in every state in the union, thereby making it almost impossible for an automobile thief to take or make his get-away with the stolen machine.

The organization's headquarters are in St. Louis. Representing the 27,000 dealers in the country it now has a membership of 5,000 in the 48 states. It is co-operative, organized for "protection, not profit," and its officers are nationally known among the dealers.

F. W. A. Vesper of St. Louis is president and Harry G. Mook, formerly of Denver, is the secretary and business manager in charge of the St. Louis office.

## CLAYWELL FUNERAL HELD THURSDAY

Many Friends and Relatives Attended Services in Winchester—Other News Items.

Winchester, Nov. 20.—The funeral of Mrs. George Claywell was held Thursday afternoon at three o'clock at the family residence at which a large number attended. A ladies' quartette composed of the following: Mrs. W. H. Kinsion, Misses A. Luckford, Ethel McClure and Pearl Wilson, sang "Come Ye Disconsolate" and "In the Hour of Trial." Elder J. H. Coates read the scripture, offered prayer and delivered a brief sermon. The flowers were in charge of Mrs. George Brengle and Mrs. Carl Miller. The pall bearers were six nephews of Mrs. Claywell, William, Howard and Albert Buckley, Roy Brown, Ed Young and George Buckley, Jr. Interment was made at Winchester cemetery.

Among those from out of town who attended the funeral were: Mrs. E. C. Young of St. Louis, George Buckley Jr., John S. Brown and Mrs. Robert Hawk of Jacksonville; Edith Young and George Buckley of St. Louis; Mr. and Mrs. Lincoln of Colorado; and Mr. and Mrs. Hawk and daughter of White Hawk.

As has been previously stated, the Older Boys Conference will be held in the city of Aurora, the 25th, 29th, and 30th of this month. Fourteen boys and one or two leaders from Jacksonville have so far signed up for the trip.

These fourteen young men include five from Centenary, two from the Y. M. C. A., two from State Street church, two from the Central Christian church, and possibly two from Grace church.

The president of the organization, Glidden Reeve, of this city, will accompany the local delegation, leaving here Friday morning on the Alton at 2 a. m. At Joliet the Jacksonville delegation will transfer to the interurban.

The cost of the round trip has been closely estimated at \$14.22. It is important that all who go from this city go with the Jacksonville group. Any boy who contemplates this trip should see J. S. Findley at the Y. M. C. A. and make arrangements thru him so that suitable accommodations will be provided and the Jacksonville men taken care of. There will be a meeting of those who are going at the city next Wednesday evening at seven o'clock.

**EAST LIBERTY SCHOOL  
ONE OF COUNTY'S BEST**

Journal Man Tells Pupils of Foreign Lands—Pupils Average High in Answering Questions.

Did you ever see an esteemed friend after an absence of a few years, receive a cordial greeting and have a very enjoyable visit?

That is what the writer had yesterday at East Liberty school and it was pleasant indeed. His visit had not been announced but somehow someone in the school saw him coming and when he drove up to the fence a polite boy was there to hitch the horse and carry in the suit, case and the caller was made welcome by teacher and school. He didn't know but that possibly Miss Kenyon had begun somewhat to modify her opinion of East Liberty school and not place it on quite so high a pinnacle, but perish the thought.

Oh, yes, she will admit there are some very good schools in the county and some very good buildings; very good indeed, good attendance, bright pupils and all that but compared with East Liberty, well, there is really no comparison in her estimation for it is ahead of all she always insists.

The pupils are well behaved, equally so when she is out of the room as in it; always studious and trying to learn all they can. It is pleasant to see one so devoted and it appeared that the good feeling was mutual, the pupils thinking they have the best teacher in the county and that's the way to succeed; have faith in your own enterprise and admiration for it.

The visitor was greeted cordially by pupils and teacher and when he began his talk the children didn't even feel satisfied with the front seats but gathered right about the speaker, not rudely, but eager to see and hear all that was being told them. He warned them that there were several schools right after them in the matter of asking questions and they would have to look to their laurels in that respect. In answering questions they averaged well; not perfect but right along with the best.

The talk was finished and then the caller asked for questions which he likes best of all and while several schools have done admirably in this respect East Liberty retained its place at the head. For half an hour the inquiries were kept up and then the visitor was startled by looking at his watch and noting the lateness of the hour. He was invited to stay till noon and eat with the school but had to remember there was a little Scotch woman at the other end of the line who would have something to say to that and so he said goodbye to the more questions were ready.

Of course, the writer doesn't criticize schools that fail to ask questions. Some do so and some do not but the schools visited have all been courteous and polite, paid good attention and showed appreciation of what was said to them.

The school clock at East Liberty has stopped to see what is going on; the walls are soon to receive fresh paper and adornments but pictures are lacking. In fact, when it comes to that, little Routt with its ten pupils is ahead of all the others. The plant has already been written up in the Journal; suffice to say it is fine as to buildings and shaded ground. The directors are Frank Dannerbarger, president; Mrs. Mary Holmes, clerk; and Samuel Davis.

The pupils are: Howard Strawn, Lewis Morrow, Howard Morrow, Dallas Morrow, Carley Reynolds, Leslie Reynolds, Hamable Dixon, Earl Burdette, Albert Cox, Samuel Davis, Jack Swinger, George Swinger, Conklin Negus, Sarah Davis, Margaret Bennett, Lucille Bennett, Frances Bennett, Ann Adelaide Negus, Lillie Brummitt, Goldie Lindsay, Emma Lindsay, Oma Burdette, Nona Burdette, Velma Crawford, Elsenia Crawford, Sallie Reynolds, Della Reynolds, Ida Dixon.

## ILLINOIS STUDENTS IN BIG PEP MEETING

Students Prepared for Trip to Millikin Thursday Night—Speakers Were Optimistic and Predicted Victory for Illinois.

Illinois college students held a big "pep" meeting in the Gym Thursday evening. There was enthusiasm to burn and songs and yells were practiced and speeches made.

All of the speakers were optimistic and predicted that when Illinois returns Saturday evening it will be with Millikin's goat safely tethered in the baggage car of the special. Some of the students thought perhaps it would be better to tie it behind the train but this did not prevail.

Those who talked were: Postmaster Dunlap, Coach Harmon, President Rammelkamp, Captain Strickler, Manager Best, Dr. J. G. Ames, Miss Gladys Knapp and Miss Thomas.

The song appended was composed by William Hogstrom and Andrew Mendenhall and is sung to the tune of Millikin's song. The students hope to be able to sing this after the game Saturday.

We'll tie the can to Millikin, That's on the Sangamon. Our boys are on the omnibus, And rain's an awful lot of fuss. We'll tie the can to Millikin, That's on the Sangamon. We'll tie it again, To Millikin.

We hung the can to Millikin, That's on the Sangamon. Our boys were on the omnibus, And made an awful lot of fuss. We hung the can to Millikin, That's on the Sangamon. We've hung it again, We've hung it again, On Millikin.

We're going back to Illinois, 'Twill be a joyful trip. We've got the goat of Millikin. And roughed her like a billikin. We're going back to Illinois And take the championship. We're taking it back, We're taking it back, To Illinois.

**BUERCKE MARRIAGE TO  
BE ANNULLED BY COURT**

State's Attorney Robinson Files Intervening Petition Thursday Asking That Such Action be Taken.

In the circuit court recently Nicholas Buercke filed a suit to annul the marriage between William Buercke and Minnie Braithwaite Buercke. Yesterday State's Attorney Robinson filed an intervening petition asking that the marriage be annulled in the interest of the people. It was set forth that because one party to the marriage is a patient at the Jacksonville State Hospital and the other is not normal that it is a matter of public welfare to have the marriage annulled.

The action is the first of the kind ever taken in this county. Judge Smith after hearing the petition and considering the facts indicated that he would take the desired action and that he would enter an order annulling the marriage.

## IDEAL Hog Waterer

Saves 25%  
on Feed For Hogs

Takes the chill off the water the hogs drink. Enables them to put on the same flesh with one-fourth less feed. Cold water chills their stomachs, stops digestion, lowers body temperature. Hogs on cold water have to turn more corn into fuel to keep them warm, make slower growth and yield smaller profits. An Ideal waterer will save this extra feed and save you time and labor chopping ice. Most modern and efficient waterer for every day service ever made.

**See This Waterer NOW!**  
It's made right. Supplies clean water with the chill off when the temperature is 40 below. Made of heavy galvanized steel in sizes to suit all needs. Special lamp heater furnished.  
Hogs and corn are real money this year. An Ideal Waterer will make you heavier hogs on less feed. Call and see them next time your in town.

## HESSIAN FLY IS WHEAT CROP MENACE

State Entomologist Says Great  
Damage Will be Done to Crop  
Throughout the State—Local  
Conditions Not Bad.

State Entomologist W. P. Flint of the University of Illinois has issued a statement indicating that the Hessian fly will do more damage to wheat in Illinois this year than at any time since 1915. In the northern part of the state the infestation is not much heavier than last year, but in central and southern counties conditions are not nearly so good. The county agent, C. B. Kendall, during the wheat planting season frequently called attention to the danger from the Hessian fly threatened this year. Farmers were advised that late planting was the most advantageous, and a great many of them followed the advice given by the university and by the county agent.

Mr. Kendall has made some recent investigations in various parts of the county and has not found alarming conditions, although he has seen several fields that are infested by the fly. The statement by Mr. Flint was as follows, indicating that considered in a statewide way the situation is quite serious:

**Warm Days Favored Flies**  
The abundance of the Hessian flies at this time is due to the warm and calm days which favored not only the rapid development of the young insects but caused the wheat seedlings to come up in a shorter time, setting as ideal hosts for the pests. The scarcity of the flies' enemies was also responsible for their unusual numbers.

According to recent investigations under the direction of the state entomologist's office, there is an extremely heavy infestation of all early sown wheat fields in central and southern Illinois, 90 to 100 per cent of the plants being infested. In central Illinois, in a number of cases where wheat was sown very early in the season, from 50 to 75 per cent of the wheat plants have already been killed and the remaining plants are so heavily attacked that there is no possibility that they will survive the winter. In most of the central counties, wheat sown between Sept. 15 and Sept. 25 is also heavily infested, the infestation ranging from 80 to 90 per cent, but a large percentage of the plants will survive through the winter. Fields sown between Sept. 25 and 30 are from 20 to 30 per cent infested. Fields sown after the end of September are entirely free from the fly. The wheat plants sown before Oct. 10 have made sufficient growth to tide over winter.

About the same conditions hold for the southern section of Illinois, except that the dates of infestation are from five to fifteen days later.

Practically all the damage by the fly that will occur this fall has already been done, as the in-

are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Dr. Pierce's Favorite Prescription. If she is overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve wine which was discovered and used by an eminent physician for many years, in all cases of "female complaints" and weaknesses. For young girls just entering womanhood, or women at the critical "change of life" in bearing-down sensations, periodic pains, ulceration, inflammation, and ever-cindred ailments, the "Favorite Prescription" is the only medicine put up without alcohol—ingredients on wrapper.

If not obtainable at your dealer's send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and we will mail this package of the tablets.

Quincy, Ill.—"It is a pleasure to recommend Dr. Pierce's Favorite Prescription for it certainly proved a great comfort to me during expectancy afterward. I am sending my baby photograph so that you can see what fine 'Favorite Prescription' baby!"

—MRS. ORAL McMULLEN, 416 Oa Street, Quincy, Ill.

sect is now reaching the faxe stage when it does not feeding and in which condition it will pass the winter.

The prospect of the wheat harvest is not, however, hopeless. Although from 25 to 50 per cent of the crop will be destroyed, the shortage will give a good price which will partly compensate the loss, so that whatever can be saved is well worth saving. All the fields infested this fall, even where the infestation will run over 80 per cent, will not be killed by the fly. Where such fields are on strong ground, containing an abundance of food, nearly all the plants are standing, even tho the original plant has been killed. It is advisable that all fields showing good growth of tillers and all where less than 25 per cent of the plants have been killed, be allowed to stand thru the winter, even tho heavily infested at the present time.

**In Spring Days.**  
Another brood of the fly will appear in the central section of Illinois from April 15 to 30, and five to ten days earlier in the southern part. If the weather will favor the development of the brood, that is, warm, still days for a period of a week or so after the flies have emerged, it will enable them to lay their eggs on the wheat plants and will cause serious damage to the crop in the spring. But if the weather turns out unfavorable, that is, cool with high winds and frequent rains, damage by this brood will be only slight to moderate, and a fair crop may be obtained from the fields 50 to 80 per cent infested this fall. Should the weather favor their development the spring brood will fly over all wheat fields in the vicinity and infest not only those fields infested this fall but also the later sown fields free from the fly.

Farmers are warned to adopt every possible measure to prevent a heavy infestation next year. They can resort to plowing under all infested stubble as deeply as possible; keeping down the growth of volunteer wheat in the late summer; sowing as nearly as possible on the average fly-free date; and keeping the ground in such a condition that an abundance of plant food is available to enable the wheat to resist the injuries done by the fly.

## Social Events

### Fortnightly Club Met

The Fortnightly club met at the home of Miss Jennie Grassley, 357 South Clay avenue Thursday afternoon. The club is studying world reconstruction and Miss Grassley had the paper of the afternoon her subject being, "Recreational Reconstruction."

### Westminster Birthday Party.

The Westminster birthday party was held Thursday at the home of Mrs. Ensley Moore on West State street. The hostesses were: Mrs. J. H. Rayhill, Mrs. W. C. Bradish, Miss Margaret Tholen, Miss Daisy Rayhill, Mrs. J. E. Bentley, Miss Effie Race, Mrs. Emma Bland, Mrs. Mary L. Cunningham, Mr. Lee P. Alcott, Mrs. John W. Larson. When the refreshments were served, Mrs. Rayhill and Mrs. Bentley poured. The afternoon was spent in a very pleasant and profitable way.

### Strawn's Crossing Club

Held All Day Sewing.

Members of the Strawn's Crossing club held an all day sewing for the benefit of the Social Service League at the home of Mrs. Al Foster in South Jacksonville Thursday. Twelve ladies were present and thirty useful garments were completed for the open air school and other needy children throughout the county. This is a most worthy cause and the ladies who took part in the sewing are to be commended for their work.

### Home Missionary Society

Met With Mrs. T. H. Rapp.

The Woman's Home Missionary Society of Centenary church met at the home of Mrs. T. H. Rapp of South East street Thursday afternoon with a good attendance. The devotions were in charge of Mrs. Ferguson. The subject was Slavonic work and the paper of the afternoon was by Mrs. Wilkinson. Mrs. Alexander who has been president of the society resigned because of ill health and Mrs. T. H. Rapp was elected to succeed her. A social hour followed and the hostess served refreshments. The next meeting will be held with Mrs. William Wilkinson Friday, December 21.

### State Street Ladies

in All Day Sewing.

The Ladies Aid of State Street Presbyterian church held an all day meeting at the church Thursday. Thirty-five were present at dinner and forty-five were present during the afternoon.

Mrs. Cohick, in charge of the Social Service work, was a guest of the ladies at dinner. In the afternoon she told something of the work the Social Service League is doing and also of its needs. The ladies spent the day making garments for the Social Service League. They also donated a generous sum toward the social work the league is doing.

### Kumjoynus Class of

Centenary S. S. Meets.

The Kumjoynus Class of Centenary Sunday school held their first monthly social and business meeting of the season at the church last evening. At six o'clock an oyster supper was served, and following this event came the business session and the election of officers. Mrs. D. V. Goudy is the teacher of this group of young married women of Centenary church and a great deal of interest is being evidenced by the members. It is the plan to hold meetings regularly each month and various plans are being perfected for activity along special lines.

The following officers were named last night:  
President—Mrs. George Ed-

mon.  
Secretary—Mrs. William Spillman.  
Treasurer—Mrs. Edward Ran-

son.  
Mrs. Ann Kisslingbury Celebrates Her 90th Birthday.

Wednesday was the 90th milestone in the life of the venerable Mrs. Ann Kisslingbury who resides with her daughter, Mrs. Soby on East State street. During the day many called to express their great esteem for the worthy old lady and a number of handsome and useful presents were bestowed. Mrs. Kisslingbury has resided in Jacksonville for much more than half a century and has seen many changes. She and her husband arrived in the night on the Wabash and Mr. Kisslingbury had a position at the Insane Hospital and inquired the way out. They told him it was a mile or more across the prairie south of town and he would have trouble getting there after dark so he remained down town with his family all next morning.

The wild prairie is now settled up and is one of the attractive parts of town. When the gas works were planned the promoters thought they were going out of the city almost with the works, which would be of immense value but not wholly desirable in a residence neighborhood but they hardly went far enough.

## Celebrated Seventeenth Wedding Anniversary.

Mr. and Mrs. Clarence Smith celebrated their 17th wedding anniversary at their home near Orleans Thursday evening. Over 100 guests were present and the evening was spent in dancing and games. Music was furnished by Vieira Brothers orchestra. An elegant supper was served.

## FRANKLIN DEFEATED GIRARD THURSDAY

Swamp Macoupin County Team Under an Avalanche of Baskets—Final Score 69 to 19.

Franklin, Nov. 20.—Franklin's Independent basketball team defeated the Girard Independents in Marquette hall this evening by a score of 69 to 19.

The Franklin team played with a speed that bewildered Girard and it was only a question of the size of the score after the first few minutes of play.

Hughes, who played center for Waverly high for several years, is playing center for Franklin and adds greatly to the strength of the team. W. Teaney, Seymour and Hughes scored Franklin's points while Wiley, Wann and Driver made the points for Girard. Franklin will play Bluffs Thanksgiving night.

In their talks they  
showed to the people just what a  
community high school means to  
a community and what it means  
to establish and maintain one.

Music was furnished by the school  
children and the High School Trio.  
The community high school  
committee, which was appointed  
about two years ago to map out  
the territory had supper with the  
speakers. A committee of three

**HAS BEEN FOUND**

Wedge Between Two Trees in  
Huntley Pasture.

A few weeks ago Mr. Ed New-  
man, of Baylis, lost a fine horse  
and new buggy and harness. It was  
supposed that the outfit had been  
stolen, as Mr. Newman had left it  
hitched to a rack in Baylis. Al-  
though a thorough investigation  
was made, no trace of the prop-  
erty could be found.

And now comes a discovery that  
is somewhat peculiar. A few days  
ago Mr. Curt Aiken, while crossing  
the pasture on the Huntley farm,  
about seven miles northeast of  
Barry, found Mr. Newman's horse,  
buggy and harness. The horse  
was still hitched to the tree and  
was wedged in between two  
trees where it had evidently tried  
to pass and become fast. The an-  
imal when found had been dead  
many days and the trees on either  
side of the horse were gnawed  
and stripped of bark where the  
unfortunate animal had struggled  
for food in its dying hours.—Bar-

## NEW OFFICERS FOR SALVATION ARMY

Ensign and Mrs. Frank Sherwood  
Will be in Charge—Have Had  
Many Years Experience in  
Work.

The Salvation Army has re-  
cently had a change in its com-  
manding officers. Lieut. Oliver  
Kennedy has been appointed to  
Cairo, Ill., and the new incoming  
commanding officers are Ensign  
and Mrs. Frank Sherwood, for-  
merly of Chicago, and more re-  
cently of Tacoma, Washington.

Ensign and Mrs. Sherwood  
have been officers of the Salva-  
tion Army for the past 20 years  
and come to Jacksonville with a  
good fund of experiences in the  
work of the Salvation Army.

The welcome services of En-  
sign and Mrs. Sherwood will be  
conducted Friday night at the  
Salvation Army Hall on College  
street to which all are cordially  
invited.

The new officers have musical  
talent and are good platform  
speakers and they will surely be  
glad to meet the people of Jack-  
sonville on Friday night at 8:00  
o'clock. They are also looking  
forward to their first Saturday  
and Sunday services and extend  
a cordial invitation to all to these  
services.

## CITY MOVES TO CUT FUEL CONSUMPTION

Change Made In Street Lighting Schedule—Local Supply Will Last a Week Without Serious Improvement — Dealers and Large Users Believe Agreement Between Operators and Miners Is Near.

In order to conserve fuel George Stodt, superintendent of the city light department, yesterday changed the schedule of lighting and current outside the business district was shut off at midnight. Today beginning at 7 o'clock, the pumps at the south end station will be used and the light plant will be shut down until the evening hours. There is sufficient coal for a two weeks' run at the pumping station, while the supply at the light plant where the consumption is considerably larger, will run another week, that is, with the curtailed service.

The plan which Mr. Stodt will follow will save a considerable amount of coal at the light plant and the public will be very willing to suffer the slight inconvenience caused in order to make this economy of fuel possible.

### Take Optimistic View.

The general fuel situation in Jacksonville is approaching the acute, but most dealers and large consumers take an optimistic view and believe that a settlement between the miners and operators is very near at hand. Dealers who were in communication with operators in Chicago yesterday by telephone found that while the operators had no direct advice from their representatives in Washington, that the feeling existed that settlement would come in the course of a very few days. If this proves to be the case and the miners accept the operators' proposals today or tomorrow, work can be resumed in a great many mines next Monday.

In other mines, because of damage done since the strike was called, a considerable amount of work will be necessary before any coal can be raised. However, this is true only of individual mines and in the greater num-

ber of instances work can be resumed at once, so that as soon as the new scale has been negotiated relief can come.

### Thousands of Cars Ready

It is true also that a vast number of empty cars are now available at the mines and there will certainly be no car shortage for some days to come. A week ago the Burlington alone had sent 7,000 empty cars into the mines of central and southern Illinois. That rich coal territory is tapped by a number of other roads, so that the side tracks there are filled with empty freight cars.

There was not more than one car load of coal among all the dealers of Jacksonville yesterday, and the only reason that there is not acute suffering is the fact that the weather is not cold and the consumption of coal is correspondingly light. Urgent appeals have been sent to the fuel committee in Chicago thru the local railroad agents and it is believed that today and tomorrow will see several cars of coal released. In event this action is taken, the coal received will be distributed among institutions with a very short supply, instead of being apportioned to private consumers. The case is very rare wherein a private consumer, if short of coal, cannot borrow from some neighbor.

### Priority Claims.

Hospitals and schools along with public utilities, have priority claims for fuel that are recognized by the distribution committee, and it is by giving assurances to the committee that any coal received will be distributed in this way that the local dealers have hopes of the release of two or three cars.

If an agreement is reached so that the mines can get into operation the first of the week there will be no suffering in Jacksonville and neither will any industry suffer any serious embarrassment. While the supply of soft coal is so short, there is some reassurance in the fact that there is a considerable supply of wood in local yards, together with a moderate supply of hard coal of furnace size, and in addition the Jacksonville Railway & Light Co., has a large amount of coke available. By comparison with a great many other cities, Jacksonville is in a fortunate condition.

Summed up, the situation is that the city can by conservative methods get thru another week without acute suffering and there is promise of relief before a week passes.

## WARREN CASE WEDS PENNSYLVANIA GIRL

Former Jacksonville Boy is Married Tuesday at Home of Bride in Coatesville.

Word was received in the city yesterday announcing the marriage of Miss Ellen L. Gillespie of Coatesville, Pa., to Mr. Warren Case of Toledo, Ohio.

The cards received read as follows: Rev. and Mrs. George Elliott Gillespie announce the marriage of their daughter Ellen Lillian to Mr. Warren Case, Tuesday, November 18, 1919, Coatesville, Pa.

Mr. Case is well known in Jacksonville where he was born and reared. He was educated in the public schools of this city and later graduated from Illinois College. Following his graduation from Illinois, Mr. Case took up an intensive course of study in accounting and auditing at a New York school. Completing his course at the eastern institution he accepted a position with J. Capps & Sons in this city and for several years was employed as an expert accountant by the local firm. Several years ago he received an offer from an eastern concern which offered a larger field.

At the present time Mr. Case is credit manager for the firm of LaSalle and Koch Company of Toledo, Ohio, one of the largest department stores in that city. His many friends in Jacksonville will extend congratulations and sincere good wishes to Mr. Case and bride at this time.

## CAFETERIA SUPPER AND APRON SALE

## L. W. SNERLY SELLS DECATUR GROCERY

Former Jacksonville Merchant Disposes of Property to Piggly Wiggly Concern.

The following article taken from yesterday's Decatur Review should prove of interest to local people as Mr. Snerly was a former resident of this city, and at one time in the grocery business with A. R. Taylor:

"L. W. Snerly has sold the Barbey store on East Prairie avenue, which he bought last summer from the Barbey Store Co., to the Fisher Grocer Co., the proprietors of the two Piggly-Wiggly Stores already established in Decatur. The company will immediately turn his store into a cash and carry grocery store.

"Mr. Snerly will transfer his business and accounts to his North Main street store by next Monday when possession of the Prairie avenue store will be turned over to the Fisher Co., for remodeling and the installation of new fixtures.

"The books and accounts belonging to Mr. Snerly will be transferred to his original store, corner of North Main and West William streets, but the merchandise has been sold to the Fisher Co."

## DUNCAN MEMORIAL FUND IS GROWING

Now Have One Hundred or More Pledges—Tablets for Augustus Ayers, J. O. King and J. T. Alexander.

With one hundred or more pledges for tablets the project of purchasing the Governor Duncan home by the D. A. R. for a memorial building seems assured.

Mrs. Carl E. Black announced Thursday that one hundred or more pledges had been received. This means that there will be a sum raised sufficient to purchase the building. However, the Chapter must go further than the mere purchases of the building. It will be necessary to have a fund for maintenance and it is hoped that this also will be secured within a short time.

Three pledges for tablets have been received in the past few days for citizens who were prominently identified with the early history of Jacksonville.

Miss Mabel King writing to Miss Grace Dummer pledged two tablets for J. O. King and wife.

J. O. King was father of Jacksonville's waterworks system and was for many years identified with it. He also took hold of the gas company after it had gone to pieces and put it on a paying basis.

Mrs. W. L. Alexander has received letters from Mrs. Annie R. Alexander, a daughter of the late Augustus Ayers and John T. Alexander, son of the late John T. Alexander.

Mrs. Alexander writes that they will place a tablet for Augustus Ayers. Mr. Ayers founded the Ayers National bank and was for a long period of years prominent in the business life of Jacksonville.

John T. Alexander writes that he hopes for the success of the undertaking of the D. A. R. and pledges a tablet for his father, John T. Alexander. The latter was known as the cattle king of this section in the days before the war. The town of Alexander was named for him and he was widely known. Mr. Alexander moved to Jacksonville in the latter years of his life and resided in what is now known as the Edward Lambert residence, passing away in 1876.

### A GOOD CORN CROP

J. B. Corrington, residing north of Alexander was in the city yesterday and stated that he expected to finish husking his eighty acres of corn this week and would have about 4,000 bushels or fifty bushels to the acre which is good for this year. He says his main objective with the corn is 72 cattle with hogs enough to follow them and he hopes to get a good price for his grain and keep the feed on the farm.

Dr. Jos. Tormey has again returned to the city and is at his location over Russell and Thompson's—and will be glad to meet his patients and friends. Those having accounts please call and settle.

### EXECUTIVE BOARD PLANS WINTER WORK

The executive board of the Woman's building of Illinois college held a meeting Thursday with the president, Mrs. W. T. Wilson. Plans were considered for work for the coming winter months, among the girl students of the college. The other officers of the organization are: Vice president, Mrs. C. H. ## SWINE SHIPMENT CASE ON TRIAL

Harry Clarke Charges Railroad With Delay in Moving Car of Hogs—Court Orders.

The jury in the case of Harry J. Clark vs. Walker D. Hines, director of the U. S. Railroad administration, and the Chicago & Alton R. R., at an early hour this morning had failed to reach an agreement.

The jury included Otto Muehlhausen, John McHenry, Louis Leurig, Jeff Duckett, Roy Conkle, Ray Harmon, C. A. Gunn, S. F. Sooy, B. F. Wright, Leo Kavanaugh, Thomas O'Connell, C. G. Cantrall.

In this case the complainant charged that because of the slow movement of a car of hogs to the Chicago market that the shipment was not received in time to command as high a price as would have been the case if there had been normal movement. Suit was therefore brought against the railroad for damages in the sum of \$300.

Judge Smith entered an order in the divorce suit of Emery W. Hull, vs. Alta Jane Hull, in which the decree was granted.

In the divorce suit of Edward H. McCollister, vs. Margaret McCollister, the defendant filed a cross bill and rule was entered against the plaintiff requiring the payment of temporary alimony.

In the divorce proceedings of Willis True vs. Carrie True, decree of divorce was entered.

The trial of Howard Finley, who is charged with murder, has been set for next Monday. The docket also includes for that day the case of Austin Carter, who will answer the charge of petty larceny. For Tuesday, the case of Amos Sutton, charged with grand larceny, has been set and there will also be a hearing for John Bridges of Waverly, against whom there is a statutory charge.

### GETTING HOSPITAL FURNISHINGS

As already stated, the M. E. church at Riggsston decided to furnish a room in the new addition at Passavant hospital and yesterday a committee consisting of Mrs. Wm. Peters, Mrs. J. N. Peters, Miss Jessie Richardson, Mrs. A. J. Funk and Mrs. Abe McCullough came up to make the purchases. They bought the principal part at the store of Johnson, Hackett & Guthrie and made some very handsome selections and useful as well.

Mrs. Louis Rutherford, Mrs. H. E. Gibbs and Miss Arde Funk were also with the Passavant hospital room purchasing committee from Riggsston yesterday.

—the phonograph which amazed all Jacksonville

ARE you one of those who believe that no phonograph can match the voice of the living human? An astonishing discovery awaits you—like the thousand of our citizens who attended the George Wilton Ballard recital.

Thomas A. Edison gave his famous Tone-Test last Monday night in Northminster church. He had Mr. Ballard sing in direct comparison with the RE-CREATION of his voice by the New Edison.\* Music lovers were completely baffled. Their ears were unable to distinguish the RE-CREATED voice from the living. You have never heard any phonograph that approaches the New Edison. It RE-CREATES not only the musical notes, but every elusive quality of tone and color which identify the original artist.

geese will be used here, altho the goose is usually the Christmas dinner feature.

Retail prices on ducks will probably be high too. Yesterday a woman called a local dealer and wanted to sell a number of the fowl. The dealer offered her twenty-two cents, which is 2 cents above the price offered by many in Jacksonville. The 22 cent offer was turned down in a hurry.

"People who have never before been accustomed to eating turkey on Thanksgiving Day are hollering for turkey this year," said a prominent meat dealer yesterday.

"We can't supply them," he continued. "I've got orders in at all the points where I think I can possibly get turkeys and I know that I will not have enough. On the other hand the price this year will be higher than ever before. That grows out of the demand and out of the fact that the farmers and professional raisers of turkeys will not dispose of them until they get what they are asking. I suppose turkeys will be 9 or 10 cents higher per pound this season.

"But the prices will not make much difference on the sales. People want to pay the price to get the goods. This is my experience. They are asking more than at any other time in my history for the luxury meats. I guess it is the same everywhere. Other dealers are calling for the same things that we are calling for and the wholesalers say they are out. I have great difficulty in getting pork tenderloin."

## THE OBSERVATORY

It is easy to get college statistics to show who the best football player is, but difficult to get those to show who the best student is.

The German mark was down to 2.15 cents yesterday, being of about the same value as the German kaiser; and we might add something over three cents above the value German diplomatic statements were held in this country in 1917-18.

The Leavenworth Times wants to know why a college can't do anything without rah-rahing about it. But there is no objection to the rah-rahing if they really do something. The trouble today is that the most people do nothing and boo-hoo about it.

Senators no longer stand on the league of nations. They have laid down on it.

Speaking of the H. C. L. did you ever stop to consider the number of Chautauqua jokes you need to hear about but cannot remember?

## UNINTENTIONAL ABUSE OF HIS FAMILY.

One of the trombone players in the Clay Center Band insists that Tuesday evening when he went out to play he couldn't get any sound out of his instrument. Later, after going home, he stood his trombone up by the stove and after about half an hour it began playing and entertained himself and wife for about half an hour with all kinds of marches. The tunes he had blown into the horn had frozen in it because of the severe cold and thawed out upon his return home, giving them a nice evening's entertainment.—Clay Center Times.

Both Cannefax and McCourt, the only contenders, won their matches this afternoon. Cannefax defeating Clarence Jackson of Detroit, 50 to 27 in 51 innings, and McCourt winning from Otto Reisel of Chicago 50 to 41 in 59 innings. Had McCourt won tonight's match it would have been necessary to play a flea tie for the championship.

Cannefax' title is for one year. With it he gets a prize of \$1,500 and a \$2,400 annuity coupled with a handsome salary for an eighteen week tour. McCourt gets second prize, which is \$1,250. The third prize, \$1,000, goes to Maupome. Otto Reisel of Chicago and Charles Otis of Brooklyn divided fourth prize of \$750.

## A NEW WAY TO SHAVE

Usual Irritations Eliminated.

Barbasol Softens the Beard and Heals As It Shaves.

Chemistry has another feather in its cap. Now it makes possible the "smart-less" shave.

The old scraping and pulling method of our grandfathers is replaced by an easy, pleasant method that even does away with the unsavory shaving brush and the mussy mug. Men who have tried this modern shaving preparation proclaim it the greatest discovery since shaving was invented. A remarkable ointment that heals the face and keeps it in the best condition at all times. It easily softens the toughest beard, yet will not harm the most delicate skin.

All druggists recommend Barbasol and most of them sell it.

## "Gets-It" Peels Off Corns Painlessly

Off They Come Like Banana Skin. 2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there is the peaceful, glorious "gets-it-off" way. After you have tried "Gets-It" you will say "never

Cut it? Quit it! "Gets-It" Peels it! again! to all other methods. This is because "Gets-It" is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or trouble. You apply it in 2 or 3 seconds. It dries immediately. "Gets-It" does the rest, without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once, so that you can work and play without corn torture. Be sure to use "Gets-It." It never fails. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill. **ARMSTRONG'S DRUG STORES.**

### THE RAILWAY WORLD

Enginemen Are Having Their Trouble With Coal.

Chicago & Alton engine crews are having their troubles these days. The coal that is being fed into the fireboxes is not the best in the world, and a number of engine failures have resulted. The fuel which was stored at North Springfield since last spring is now being consumed. The Pocahontas coal from Virginia is also being utilized. Master Mechanic M. J. McGraw issued some additional instructions to engine crews regarding this eastern coal. He cautioned them against shaking the grates or wetting the coal. The ash pan must be kept clean to secure the best results. The pan must also be kept free from fire to avoid burning the grates. The hoe or hook must be used when the fire is not burning freely. Mr. McGraw asks the enginemen as well as the firemen to watch the fire closely and give it the proper attention in order to avoid failures. The stored coal burns freely, but there is not much heat and it is difficult to keep up steam. The officials are doing the best they can to overcome the unusual conditions and ask the enginemen to be patient and considerate as possible while the famine exists. All are hopeful that the settlement will be reached soon. Until that time there will be considerable engine trouble and more or less delays to both freight and passenger trains.

### Thanksgiving Greeting.

D. C. Fredericks, general safety agent of the Alton, has issued the following Thanksgiving greeting to all Alton employees:

"On November 27, 1919, we celebrate the 29th anniversary of Thanksgiving Day. This is strictly an American idea which was instituted by our forefathers nearly 300 years ago, to give thanks to Almighty God for His wonderful gifts in the autumn of that year for the abundant crops. Many of us during the year just past have been obliged to part forever with members of our families who were near and dear to us, and to all such I extend my most heartfelt sympathy. Yet we should not pine as death is no respecter of person, but rather let us say, 'God's will be done.' None of us should be so forlorn but what a look backward, I am sure, will disclose some and perhaps many, many favors and blessings. We as a body of railroad employees should be grateful for the wonderful progress made in accident prevention during this last year, and above all, should be thankful that we are loyal American citizens, privileged to enjoy this great day of Thanksgiving."

Decatur shippers of express over the Illinois Central, are preparing to make a long, loud wail to officials of the road or some one in authority over the treatment being handed to them and their shipments. It is said that the superintendent's office at Mattoon, has issued orders to conductors that they must make the time. This causes the conductors to refuse to remain in Decatur any longer than their scheduled stop.

This does not give the express employees time to unload and then load all the express business for some of those trains. Consequently Decatur packages are being slighted. One truck of express for the I. C. morning train to Mattoon was left at Decatur Tuesday morning. Wednesday morning, this same truck was pulled out again, and once more the train went away and left it. In other words, it is going to take close to three days to get this express on the train. At least one Decatur shipper has already written to I. C. officials about this.

# FREE TRIAL IN YOUR HOME

The World's  
Greatest Phonograph Value

## EDISON'S NEW DIAMOND AMBEROLA

Quick! Read this through and grasp this extraordinary opportunity today! This remarkable offer is the result of Mr. Edison's expressed wish to see a phonograph in every home in the U. S. A.

He has given his consent to this Free Trial of the Amberola in your home. There are absolutely no "strings" to this offer. You do not have to pay or promise to pay one cent in connection with this Free Trial. You are not placed under the slightest obligation.

Come to our store today or tomorrow, pick out your Amberola and a dozen Amberol Records. We will deliver them promptly to your home. Let the Amberola entertain you for

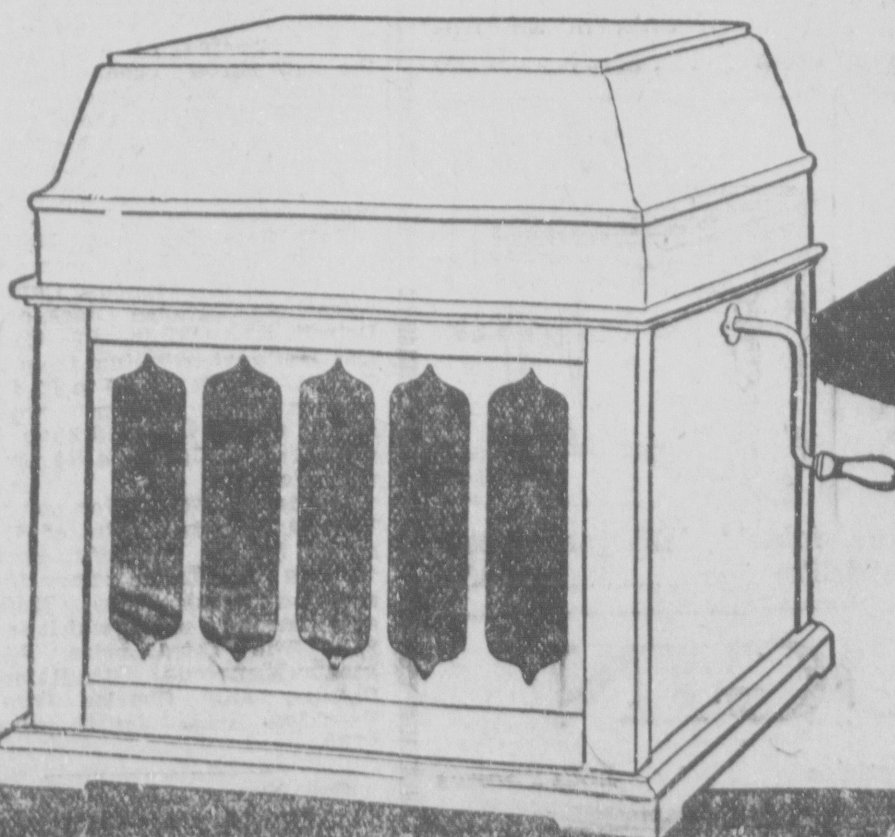

three days—ample time for careful judgment and comparison. At the end of the three days' Free Trial if you do not want the Amberola we will call for it—and thank you for giving the Amberola this trial. If you do want it, we will arrange terms of payment to suit you.

How can Amberola dealers afford to give these Free Trials? Because in the overwhelming majority of these Free Trials, people never want to part with the Amberola! Edison's great inventive brain has made the Amberola so superior to ordinary phonographs and "talking machines" that in those three days of Free Trial it sings its way into peoples' hearts and homes forever!

Numbers of people will instantly avail themselves of this Free Trial offer. If you do not act at once we may have to put you on a waiting list. So let us hear from you right away!

**BLUFFS**

Bluffs, Nov. 20.—Funeral services for George R. Rockwood were held at the family residence one mile south of Bluffs at 2 o'clock Wednesday afternoon in the presence of a large assembly of sorrowing relatives and friends. The words of comfort and consolation were spoken by Rev. Phil J. Rinehart of Jacksonville assisted by Rev. E. J. Rees. The following hymns were sung by Miss Fay Rees and Mrs. Arthur Pyle: "Face to Face," and "Jesus Lover of My Soul." The beautiful flowers were cared for by the following schoolmates of his boyhood days: Mesdames Mamie Beavers, Maggie Berry, Delphia Carpenter, Lillie Graham, Misses Virgie Buchanan and Cora Beavers.

The bearers were Messrs. Lee Morris, John B. Little, Elmer Crum, Newton Beavers, William Tholen and Ed Morris. Remains were laid to rest in the G. Rockwood lot in Green cemetery.

**Obituary.**  
 George Royal Rockwood, eldest child of Mr. and Mrs. B. F. Rockwood passed away at his home one mile south of town Nov. 17, 1919, after an illness of two years, aged 48 years, and 1 day. Six months ago he became practically an invalid and day by day tided as a flower until the end came. Deceased was born at Neelyville, Nov. 16, 1871 and with his parents in early childhood removed to the Rockwood home 2 1/2 miles south of town, where he remained until Feb. 1, 1897, when he was united in marriage to Miss Ella Mathews of Oxville and began housekeeping one mile south of town in the vicinity of which he spent the 22 years of his wedded life, honored and respected by his neighbors and friends for his uprightness, honesty and integrity. He was a successful farmer and a man who transacted all business in a business-like manner, and when about six months ago it became apparent to him that earthly ties were soon to be severed he settled all of his affairs, even to the minutest detail, leaving nothing in doubt. The bearers were of his own choosing; also the exact spot and depth of his grave.

Besides the faithful and devoted wife, who gave freely her entire time and strength to smooth the pathway and lighten his last days of suffering and pain, he leaves four children: Pearl Rockwood, grade teacher in Bluffs school; Benjamin Rockwood, Mabel and Little Ruth, aged seven years. His parents, Mr. and Mrs. B. F. Rockwood and the following brothers and sisters survive: Frank Rockwood, Merritt; H. G. and G. C. Rockwood, Springfield; Samuel Rockwood, Mrs. John Adkins, Mrs. Wm. Vannier, Mrs. C. J. Atwood, of Springfield, Helen Rockwood, of Bluffs, and two sisters, Ory and Florence. In early childhood, he preceded him to the tomb.

**NOMINATIONS CONFIRMED**

**INDIANAPOLIS LIVESTOCK**  
 Indianapolis, Nov. 20.—Hogs—Receipts 9,000; 15c lower; all weights \$14.25; pigs \$14.50 down. Cattle—Receipts 800; slow steers \$9.50 to \$17.50; steady; lambs \$13.50 to \$14.50.

**CORN CLOSES STRONG AFTER WEAK OPENING**

Chicago, Nov. 20.—Strength developed in the corn market today despite a weak beginning. Fluctuations were governed by the action of the New York stock market and by developments regarding Sterling exchange. The close was firm 3-8c to 1-14 net higher, with December \$1.33 1-4 to \$1.33 3-8 and May \$1.25 5-8 to \$1.25 7-8. Oats finished unchanged to 5-8c higher, and provisions unchanged to 55 cents up. Altho circumstances at first gave an advantage to bears in the corn market, no great pressure to sell was apparent. Only moderate declines resulted from the new low record of British exchange rates. Large receipts of corn here failed also to exert more than a mild bearish influence. It was not until the last half hour that decided gains were scored with the help of advice that American mixed corn was selling in Great Britain at about \$1.88 a bushel.

Oats paralleled the changes in the corn market. Provisions like cereals were weak early and then rallied. Increased setbacks in the hog values at the last received but little notice.

**STOCKS RECOVER SOME OF LOST GROUND**

New York, Nov. 20.—A comprehensive rally of from three to twenty points in the stock market today gave promise that reactionary influences were in retreat. The rise followed early misgivings that the defeat of the peace treaty might precipitate another decline.

Stocks were heavy at the outset but this condition was overcome quickly even the exchange on London and other foreign centers fell to lowest quotations ever recorded here.

The advance was attended by the easiest money in more than a week. Through the session brokers reported substantial buying. Only moderate amounts of money were in demand at the opening rate of 10 per cent, the inquiry evidently being so light as to cause a drop to six per cent with the approach of the final hour. Time money was again notably unchanged, but reports credited interior institutions with making loans at as low as 7 1-4 per cent.

The strength of such recent weak issues as Crucible Steel, General Motors and Mexican Petroleum suggested that the shorts were having some trouble in covering. Maximum prices were made in the final dealings when U. S. Steel and other leaders were at their best. Sales amounted to 1,200,000 shares. International issues rallied, but the domestic bond list, including the Liberty group, was moderately lower. Total sales (par value) aggregated \$147,500,000.

## COULDN'T STOOP OVER TO TIE SHOES

Gets Rid of Rheumatism and Gains Twenty-four Pounds by Taking Tanlac.

"Tanalac not only added twenty-four pounds to my weight but it has put me in as good health as I ever was in my life," said Aug. Helms, a well known farmer of Morton, Ill., while talking to the Tanlac representative recently.

"For years I have been troubled with rheumatism and indigestion," continued Mr. Helms, "and I have seen many a day when I gave clean out while working in the field and would have to lie down until I could get enough strength to get back to the house. The rheumatism bothered me so bad that every morning I had to rub my legs before I could stand up and my back hurt terribly and was so stiff that when I stooped over sometimes it looked like the pains would kill me. My joints were stiff and if I moved even the least bit I had an awful pain and often I couldn't stoop over to tie my shoes. I had such a poor appetite that many a morning I didn't touch a bite for breakfast and whenever I did eat a little something—indigestion troubled me so much that I was sure to be in misery for hours afterwards. My kidneys were out of order and I was hardly ever able to get a good night's rest. Last spring my condition got so bad that I wasn't able to do my work and I gave completely up for several weeks I could hardly get out of the house.

"The man I hired to take my place had tried Tanlac and he recommended it to me so highly that I commenced taking it. Well, sir, to make a long story short Tanlac proved its worth and now today I haven't a pain in my body and can do as hard a day's work as any man. I don't have a trace of rheumatism any more and my back doesn't hurt me at all and my kidneys were never in better shape. I eat three square meals every day and digest them without a sign of indigestion and I sleep like a log every night. As I told you I have gained twenty-four pounds and I feel just like a man wants to feel. In fact, I couldn't ask to be in better health and all credit is due to Tanlac."

Tanalac is sold in Jacksonville by Coover & Shreve, in Mercedos by Mr. R. B. Field, in Murrayville by Mr. E. Gilbert, in Waverly by Wyle Drug Co., in Woodstock by The Hoy Pharmacy, in Chapin by Jno. Onken & Bro., in Idm Alexander by Frank J. Kaiser.—Adv.

## THE "BLUES"

Caused by  
**Acid-Stomach**

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often melancholy, believe that these conditions are due to outside influences over which they have little or no control. They are always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered that such conditions as indigestion, belching, heartburn, bloating, etc., will, if unchecked, at times affect to some degree or other all the vital organs. The nervous system becomes deranged. Digestion suffers, the blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailment, feels his loss of courage, ambition and energy slipping. And truly life is dark—not worth much to the man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous modern remedy called EATONIC that brings, in such quick relief from your stomach miseries—sets your stomach to rights—makes it strong, cool, sweet and comfortable. Helps you get back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands of sufferers have used EATONIC with such marvelously helpful results that we are sure you will feel the same way if you will just give it a trial. Get a big box of EATONIC—the good tasting tablets that you can take a bit of candy with your drugstore. It will return your money if results are not even more than you expect.

## EATONIC

(FOR YOUR ACID-STOMACH)

Changes Mind About Going Away.

"Five years ago doctors told me I would have to move my wife to another climate, as she suffered so with stomach and liver trouble and bloating. Also, that she would have to have an operation for gall stones. Our mail carrier told me of Mary's Wonderful Remedy and, on his advice, she has taken it and is now as well as ever in her life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all druggists.—Adv.

## DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull aches as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white cream, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, ear, eye, nose, throat, toothache, headache, colds, influenza, etc. It is the only remedy of the kind that is safe for children. It is sold in all drug stores. It is always dependable. Price 25c and 50c per box. Size \$2.50.

## EXPANSION OF ACTIVITIES OF Y.M.C.A. FAVORED

Organization in Industrial Centers and Rural Communities Is Urged.

DETROIT, Mich., Nov. 20.—Expansion of the activities of the Young Men's Christian Association in industrial centers, a more thorough organization in rural communities, continuance of the work in the army and navy and creation of a special sub-department for work among men of this country's growing merchant marine, are among recommendations of the association's international committee, presented at the opening session of the fortieth annual convention today.

The committee makes twenty-seven recommendations upon which the convention will pass. On the subject of extending the association's work it says: In view of the fact that the war has emphasized the necessity for harmonious relations in industry and forward looking employers and workers are seeking to establish a better understanding and also in view of the fact that the Y. M. C. A. enjoys the confidence and good will of both groups, the organization should make a prompt effort to expand its activities, enlist resources and provide leadership with which to carry on this most important service.

The national war work council estimated "the value of the association's free contribution to the American Expeditionary Forces" at \$46,646,924.84. The report states that of its 12,000 overseas secretaries, 154 were wounded or gassed, ten were killed, one died of wounds and 73 died of illness.

The canteen service, the report states, operated at some 2,000 points in France, Great Britain and Italy. A chain of stores with business aggregating \$37,914,000; hotels, motion picture houses and other places of entertainment were conducted in addition to the physical, educational and religious program.

November 23rd  
IS SUNDAY

AN ANNULAR ECLIPSE NOV. 22

Sun Will Appear as a Ring Because It's Disc Is Larger Than Moon's.

Early in the morning, November 22, there will be an annular eclipse of the sun, visible as a partial eclipse in the United States except in the Far West. The annular phase begins at sunrise in Western Texas and passes thru that state, across the southwestern part of Louisiana, thence across the Gulf of Mexico, taking in the islands of Cuba and Santo Domingo, and by a wide curve sweeps over the Atlantic Ocean and ends at sunset on the southern border of the Sahara Desert in Africa. The greatest width of the shadow path is 230 miles and the duration eight to twelve minutes.

It is interesting just at this time to note the difference between a total and an annular eclipse and to determine the cause for each phenomenon. Of course, everyone knows that the sun is much larger than the moon, but the latter is so much closer to us that under usual conditions they appear to our eyes to be about the same size. The distance from the moon to the earth varies, so naturally it will appear a little larger to us than the sun when it is at its point closest to us, and a little smaller than the sun when it is farthest away.

If, when the moon is closest to us, it happens to pass between the earth and the sun there will be a total eclipse, because the moon's disc is large enough to cut off all of the light. In the case of the coming eclipse the moon is at its greatest distance from the earth, therefore its disc, being smaller than that of the sun, will not be able to shut off all of the light. During this eclipse the sun will appear as a ring in the sky, the moon cutting off all rays of light from its center, but still permitting us to see its edge.

### U. S. WOMEN CONCERNED IN VATICAN RULING

ROME, Nov. 20.—Three American women are concerned in applications for annulment of marriage now being considered by the authorities at the Vatican. Duke Heinrich-Roth von Mecklenburg-Schwerin, has asked the annulment of his marriage to the widow of Count Gasquet-James, who was formerly Miss Elizabeth Pratt of New York.

The Princess Radziwill, formerly Miss Dorothy Deacon of Boston, has based her plea for the annulment of her marriage to the Russian prince on the ground that she was forced into the marriage. Mrs. Dorothy McCombs, formerly Miss Williams of Washington, has requested the annulment of her marriage to the former chairman of the Democratic National committee, William F. McCombs.

### CLAIMS ALLOWED

Chicago, Nov. 20.—All claims except one for eleven deaths growing out of the collapse and fall here last August of a balloon owned by the Goodyear Tire and Rubber Co., have been ordered settled for \$70,000, it was announced today. The families of the eleven victims agreed to abide by the findings of an arbitration board.

## Crown it all with home-made bread

A good, old-fashioned Thanksgiving dinner with all the family reunited for the first time since the war. Frost's in the air, and appetites are on edge! *What* a day, and *what* an opportunity for good cooking. Don't disappoint them—use

## Valier's Enterprise Flour

—do your cooking ability full justice. Make your dinner a memorable one and crown the feast with crisp, brown-crusted bread—the best you've ever made.

The wheat that goes into Valier's Enterprise Flour is the best that can be grown—carefully selected hard winter wheat, rich in gluten.

It is scarce this year, and we have to pay an unusually high premium for every bushel we use. We do so cheerfully, that you might continue to enjoy the super-quality which has distinguished Valier's Enterprise Flour in the past.
